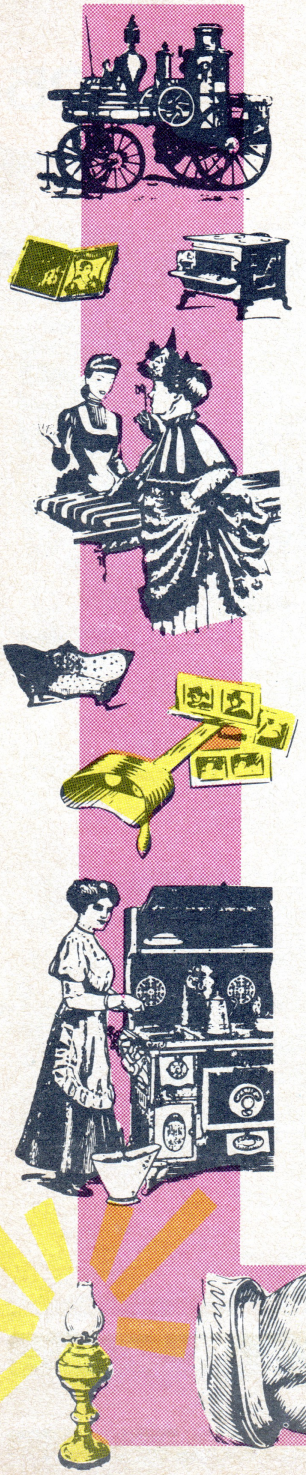
# GOOD·OLD·DAYS



## There is no other magazine like it in all the world!

Remember the Stereoscope with those funny pictures? The Franklin stove in the parlor, the little building "out back"? High button shoes, tasseled portieres, the homey smell of a kerosene lamp?

If you do, you'll just love to re-live those glorious, nostalgic times in GOOD OLD DAYS, the magazine that brings the past back to life again!

If you don't wouldn't it be fun to discover what the "good old days" were really like?

Precious old-time memories come vividly to life in GOOD OLD DAYS, the one and only magazine in all the world that carries you back through the "Roaring Twenties" to the "Gay Nineties" and beyond. GOOD OLD DAYS is filled with early Americana . . . old songs and poems, old time movie stills, photos, costumes, customs, the ways of a by-gone day when life was so much simpler. And every word and picture in GOOD OLD DAYS is completely authentic — gathered from special old-time sources and archives for your enjoyment.

Now you can re-capture the joys of early America as perhaps you once knew it, or your parents did. In GOOD OLD DAYS you'll find memories that are pleasant, memories that are sad, memories so hilarious they'll have you in stitches.

After all, aren't memories what dreams are made of?

**Now, don't you agree that GOOD OLD DAYS can bring you hours and hours of old-fashioned fun? Why wait to enjoy this rare and unusual treat? You can order this unique magazine now for only $3 for the next 12 big issues . . . and if you don't agree that GOOD OLD DAYS is just as wonderful as we say it is, just tell us and we'll return your money in full, immediately, and without question! So fill out and mail the coupon TODAY!**

# $10,000 Medicare

- **Pays you IN ADDITION to all other insurance.**
- **GUARANTEED RENEWABLE for life or until $10,000 paid per person.**
- **Underwritten by old, reliable legal reserve life insurance company founded in 1928.**

This message is of special interest to men and women 65 or older who are automatically covered by the U.S. Government Medicare Hospital Plan.

It tells about the **wonderful new $10,000 American Life Medicare Supplement Plan** which gives you full protection, in accordance with the benefits described, against big hospital bills.

**It pays hospital costs which Medicare does not cover.**

**U.S. Government Medicare Plan A pays only PART OF THE COSTS after 60 days and NONE OF THE COSTS after 90 days of hospital confinement. This is why it is important that you have the full, low-cost additional protection of the new American Life Medicare Supplement Plan.**

We never know when one of a score of diseases or accidents may strike, requiring a long hospital stay—such as heart attack, stroke, cancer, vascular disorder or a broken hip. Statistics show that people 65 years or older are hospitalized at least twice as long as those under 65.

**How about you?** Do you have enough income to cover big, unexpected hospital bills? Do you have enough savings to handle such long-term emergencies **which could cost you thousands of dollars?**

Just one long hospital stay may plunge you into poverty, cause you to lose your life savings and make you dependent on others.

**But you need not be exposed to these hazards!**

**Now . . . for only $2.50 a month per person . . . you can protect your income and your life savings against such perils with the new $10,000 American Life Medicare Supplement Plan.**

This new, low-cost plan **pays up to $10,000 tax-free benefits per person** under an easy-to-understand policy. The money is paid directly to you (or to the hospital, if you prefer). No matter how long you stay in the hospital, there's no time limit for each confinement up to $10,000 total benefits per person.

**SONS, DAUGHTERS, RELATIVES: You can protect your loved ones 65 or older against the burden of a big hospital bill (as well as a drain on your own income and savings) by taking out a policy for your parents or relatives NOW. Just fill in the application form today and have the person to be insured sign it. We will gladly bill you for the low quarterly, semi-annual or annual premiums after you have received your policy.**

# YOU CAN ...NOW FOR ONLY $2.50 PER MONTH WITH AMERICAN LIFE'S

But you must enroll **now** to collect the benefits. As long as you are 65 years or older, there's no age limit. Both husband and wife can enroll (a spouse can join when reaching 65) and enjoy equal benefits for the same low premium per person.

Upon acceptance of your enrollment, we will send you your American Life Medicare Supplement Plan Policy and your Hospital Identification Card. You will also receive a premium payment notice covering the first quarterly premium at the rate of $2.50 per month per person (the cost will be even lower if you pay the premium for six months or a year). Upon receipt of the policy, if you are not completely satisfied, you owe nothing.

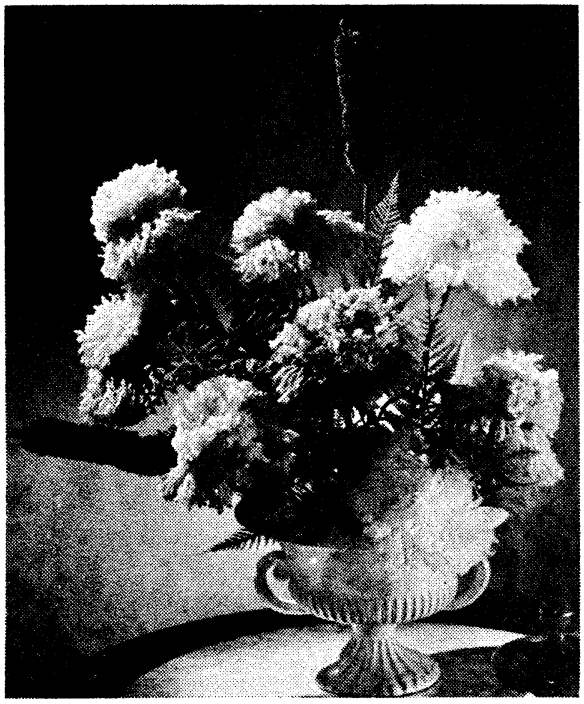
# *So Easy Flowers*

These easy and attractive flowers are sure to cause comment and conversation—for they are not ordinary flowers. Yarn flowers and cattails require one 70 yard skein of American Thread "Aunt Lydia's" Heavy Rug Yarn in pink, light rose, green and brown. One skein makes approximately three flowers. You will also need medium florists wire and glue.

Peonies: Open darker shade of pink, cut through yarn at one end. Lay yarn out flat on work area and cut into 5½ inch lengths. Do same for lighter shade of yarn, only cut into 3½ inch lengths. Take 1 section of darker shade for bottom of flower. Place 2 sections of lighter shade in center of darker shade. Fold a piece of wire in half (make wire long enough to allow for stem

after twisting to make flower). Place in center of cut sections of yarn and twist wire together tightly. To make flower fluffy, unwind or untwist each strand of yarn. Shake and trim flowers.

Stems: Glue one end of green yarn directly to wire underneath flower. Twist and wrap to end of wire until covered. Glue end.



Cattails: Open brown skein and cut in half. Set aside two strands cut into 8 inch lengths. Cut remainder of skein into 1½ inch sections (8 to 10 sections for each cattail). Fold wire in half, take one 8 inch length and wind on each side of fold for an inch. Tie ends together 1 inch from top. Take one section of 1½ inch strands, place between wires, twist wire tightly together. Repeat this last step until cattail is length desired (around 5½ to 6 inches). Trim.

Cover stem in same way as for peony.

## Latchet Rug

*(Continued from Page 16)*

frame required. Even a large rug may be held on lap while working loops if desired, or worked on a table. It is ideal as pickup needlework in spare time or a more concentrated effort will produce completed article in a shorter time. Complete kits come with design stamped in color on canvas; yarn cut to right length and packaged according to colors; latchet hook with complete instructions and binding tape, depending on shape of rug. Rectangular rugs do not require binding but may be bound if desired.

These rugs are made on an open mesh canvas which is strong, durable and comes in various widths. The canvas comes with a selvage edge along each side which gives greater strength. On a rectangular rug, three or four rows should be allowed at each cut end of canvas, to be folded to topside and worked through two thicknesses. Another method of finishing cut ends is to turn under edges after rug is completed and finish with binding.

The latchet hook is a necessity for these rugs and one sketched gives an idea of type hook to look for if you are purchasing all materials separately rather than in kit form. This hook has a small, hinged piece of metal which opens and closes with movement of hook in and out of canvas. This type hook is needed to pull yarn through canvas and looped rug yarn to form a tied loop. These tied loops make it possible to vacuum and clean rugs with no fear of any loop being pulled out or loosened.

Select a design to harmonize with furnishings. There are traditional, modern, Early American and Oriental designs which may be purchased and all have a suggested color scheme stenciled on canvas. Of course, these colors may be changed to complement color scheme if preferred. For those with artistic ability who prefer to paint or stencil an original design on canvas, plain canvas can be purchased in various widths. Sketch design, then paint in choice of colors. Painting or stenciling the canvas means you must figure approximate amount of various colors that will be needed. Approximately 10 ounces of 6-ply cut wool rug yarn will cover one square foot of canvas.

It is best to buy all background yarn from one dye lot. Even the slightest variation in color will be noticeable in a background. For the most attractive and longest wearing rug, be sure to purchase only 100 percent wool rug yarn.

Once everything is assembled and you are ready to begin rug, you will find the easiest method is to sit at a table with one end of canvas in front of you. On a rectangular rug, fold three or four rows at one end to topside and work knotted loops through this doubled thickness. Work from either side or from center out to edge, whichever is most convenient. A little experimenting and practice will soon tell you which method is best. The steps for making knots are given below. As work progresses allow completed portion to come forward on lap, rolling or folding as necessary for greater ease in working. It is helpful to place a weight on canvas resting on table so there will be a resistance as knots are pulled tight.

To make knotted loops: Double a piece of yarn and place behind latch (Fig. 1).

Push hook down through one

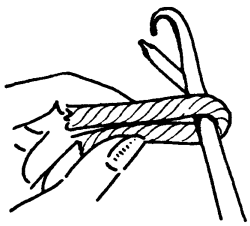

Fig. 1

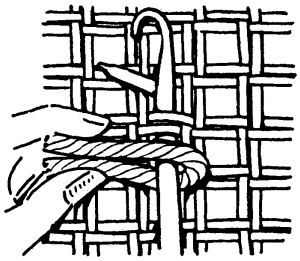

Fig. 2

Fig. 3a

Fig. 3b

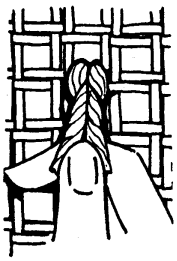

Fig. 4

square and up through one immediately in front, allowing latch to rest on top of double thread of canvas (Fig. 2).

Bring two ends of wool back into eye of hook (Fig. 3a) and pull hook back through looped yarn (Fig. 3b), giving yarn a flip upwards as you do this.

Tighten knot by pulling ends of tuft (Fig. 4).

There is another way to form the knots which makes same knot, but in reverse. Some prefer one way over the other. Push hook under double thread of canvas until latchet is through canvas, double yarn and catch loop with hook (Fig. A).

Pull hook until looped yarn comes under canvas threads (Fig. B). Without removing hook, push hook and latchet back through loop of yarn and catch hook around both ends of wool held in fingers (Fig. C).

Pull hook bringing both ends through loop and tighten knot by pulling both ends (Fig. D).

Practice making a few knots using either way and you will find

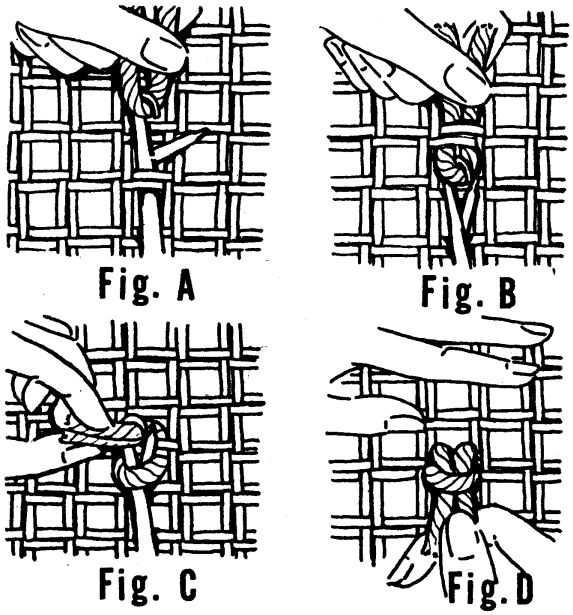
## Latchet Rug

*(Continued from Page 25)*



that hook is almost automatic in action. Be sure to keep the two ends even in doubling wool. It is more satisfactory to work on row straight across, then next row and continue this way. This method gives more even tension to canvas and prevents canvas from softening before rug is completed. However, some prefer to complete portion of design, then work background. There is really no set rule. The knots are worked across from selvage to selvage.

Finishing rug is an important step. Shake briskly, brush with a whisk broom or run vacuum cleaner over it to raise pile. At this point carefully check for uneven ends of yarn and clip where necessary. If you did not work through doubled canvas at ends and do not have selvaged sides, add rug binding now. Be sure to mitre corners, or in a semi-circular, oval or circular rug ease in fullness. Oval, circular or semi-circular rugs should have canvas trimmed to about 2 inches all around edge of finished design. Fold canvas under and whipstitch binding securely in place so it covers raw

edges. Selvage may be turned under or left as is, whichever is preferred —they will not show beyond deep pile of rug.

It is perfectly safe to vacuum completed rugs repeatedly. Dry cleaning is recommended if they become excessively soiled. You will never find any other rug that withstands daily wear and tear yet retains the luxurious deep pile appearance over the years as these rugs do. You can add still more comfort and beauty to your rug with a sponge rubber carpet cushion, if desired.

# BREAD SURPRISES!

It's a new season and for many homemakers it's time to enjoy home baking again. Baking bread, rolls and coffee cakes is a womanly craft that can be a source of pride and delight. Perk up that lunch box for husband and children with homemade bread sandwiches. Or welcome a new neighbor with an attractive and tasty coffee cake—sure to be appreciated. Breads and other products made from enriched flour are important in the daily diet.

We hope the recipes featured this month will interest the specialty bread maker as well as the beginning baker.

Here's a new trick for a tasty breakfast—individual loaves of Cranberry Nut Bread.

## Cranberry Spice Nut Bread

- ½ cup sugar
- 1 cup milk
- 1 egg, beaten
- ¼ teaspoon salt
- ¼ teaspoon ginger
- ½ teapsoon cinnamon
- 1 teaspoon lemon extract
- 3 cups biscuit mix
- 1 cup fresh cranberries, coarsely chopped
- ½ cup chopped walnuts

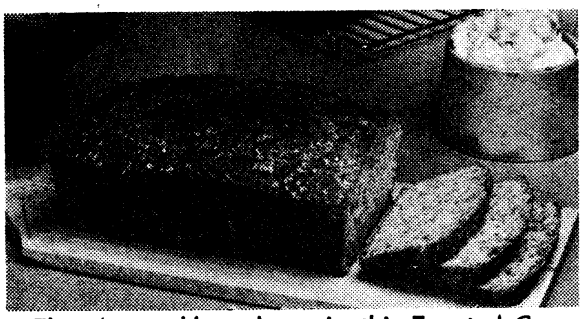
Preheat oven to 350°F. Combine sugar, milk and egg. Add salt, ginger, cinnamon, lemon extract and biscuit mix; beat vigorously for 30 seconds. Fold in cranberries and nuts. Spoon into a well-greased 9 x 5 x 3-inch loaf pan. Bake in moderate oven (350°F.) for 60 to 65 minutes, or until browned. Remove from pan and cool thoroughly before slicing.

To make individual loaves: Fill greased and floured individual loaf pans (about 4 x 2 inches) with batter, filling about ⅔ full. Bake in moderate oven (350°F.) for 35 minutes or until loaves are browned. Serve hot or cooled with favorite jam.

## Toasted Coconut Tea Bread

- 3 cups sifted all-purpose flour
- 3 teaspoons double-acting baking powder
- 1 teaspoon salt
- 1 cup sugar
- 1⅓ cups (about) flaked coconut, toasted
- 1 tablespoon grated orange rind
- 1 egg
- 1½ cups milk
- 1 teaspoon vanilla

Sift flour with baking powder, salt and sugar. Stir in toasted coconut and grated orange rind. Beat egg until foamy; mix with milk and vanilla. Stir liquids into dry ingredients and mix thoroughly, but do not beat. Pour into a greased 9 x 5-inch loaf pan. Bake at 350°F. for 1 hour and 10 minutes. Cool. Cut in thin slices to serve. Toast, if desired.



There's sparkle aplenty in this Toasted Coconut Tea Bread.

To Toast Coconut: Thinly spread in shallow pan. Place in oven at 350°F. and heat until lightly browned—about 7 to 12 minutes. Stir to toast evenly.

**Note:** This bread may be wrapped in aluminum foil and allowed to "ripen" for 2 or 3 days before serving.

### Golden Crust Bread

**2 cups hot water**
**3 tablespoons butter**
**2 packages dry or compressed yeast**
**3 tablespoons sugar**
**2½ teaspoons salt**
**1 cup instant nonfat dry milk**
**5-5½ cups all-purpose flour**

Place hot water in a 5 quart bowl. Add butter, broken into small pieces. Let stand until butter is melted; cool to lukewarm (95°F.) Add yeast (crumbled if compressed yeast is used) and sugar. Let yeast soften about 5-10 minutes; it will rise to top of liquid. Stir in salt, nonfat dry milk and 2 cups of flour; beat until smooth. Add 2 more cups of flour and spread remaining 1½ cups on board and turn dough out. Begin kneading and working in flour, adding only if needed, as too stiff a dough will not rise properly. Knead until smooth and satiny. Place dough in buttered bowl, brush top with melted butter; cover with waxed paper and clean towel. Let rise in warm place until double in volume (about 1 hour). Turn out on board, work down. Let rest 10-15 minutes. Divide equally and roll each piece about 15 inches long and 9 inches wide. Fold ⅓ over lengthwise and press firmly from center to ends to remove any trapped air; fold over other third and seal same way. Fold ends same way. Place in 2 buttered loaf pans 9 x 5 x 3 inches. Brush with melted butter. Cover and let rise until ends are at top of pan and center rounded. Preheat 375° oven for oven glass pans—400° for metal pans. Bake 30-35 minutes until golden brown. The bread is done when it shrinks from pan and sounds hollow when tapped with fingers. Turn out on cooling rack at once. Makes 2 loaves.

**¼ cup sugar**
**1 teaspoon salt**
**4 cups sifted enriched flour (about)**

Stir in 1 cup flour and beat until smooth. Beat in yeast. Cover and let rise in warm place (80 to 85°) until bubbly, about 1 hour. Stir down. Beat in eggs. Add enough more flour to make a soft dough. Onto lightly floured board or pastry cloth turn out dough and knead until smooth and satiny, about 20 minutes. Shape into ball and place in lightly greased bowl, turning to grease all sides. Cover and let rise in warm place until doubled, about 1½ hours. Meanwhile, grease 1¾-quart brioche or baking mold. Punch dough down. Let rest 10 minutes. Remove about 1/5 of dough; shape each portion into smooth ball. Place large ball in mold. With fingers make an indentation in center of large ball; place smaller ball in indentation. Let rise in warm place until doubled, about 40 minutes. Meanwhile, preheat oven to 350°F. Bake Brioche 40 to 45 minutes, or until golden brown and firm. Immediately remove from mold; brush top with butter or margarine. Serve warm or cool.

**Note:** If self-rising flour is used, omit salt.

Stir in mashed potato, lukewarm milk mixture and 3 cups flour; beat until smooth. Stir in enough additional flour to make a soft dough. Turn out onto lightly floured board. Knead until smooth and elastic; about 8 minutes. Place in greased bowl, turning to grease top. Cover; let rise in warm place, free from draft, until doubled in bulk, about 35 minutes. Punch down, turn dough over in bowl; cover and let rise again about 20 minutes. Punch down. Turn out onto lightly floured board; divide in half. Shape each half into loaf; place in greased 9 x 5 x 3-inch loaf pans. Cover; let rise in warm place, free from draft, until doubled in bulk, about 25 minutes. Dust loaves with flour. Spiral enriched white bread dough with whole wheat dough to make Pinwheel Bread.

## Pinwheel Bread

**1 package yeast, compressed dry**
**¼ cup water (lukewarm for compressed yeast, warm for dry)**
**2 cups milk**
**2 tablespoons sugar**

Stir in about 2 cups enriched flour and beat until smooth. Beat in yeast. Into medium-sized mixing bowl pour ½ of batter (about 1½ cups); set aside. Into first half stir in enough more enriched flour to make a moderately stiff dough. Onto lightly floured board or pastry cloth turn out dough and knead until smooth and satiny, 5 to 8 minutes. Shape into ball and place in lightly greased bowl, turning to grease all sides. Cover and let rise in warm place (80 to 85°) until doubled, about 1½ hours. Punch down both white and whole wheat doughs. Divide each in half; shape into balls. Let rest 10 minutes. Meanwhile, grease two 4½ x 8½-inch loaf pans. To form loaves: Roll one whole wheat ball to 8 x 16-inch rectangle. Repeat with one white ball. Place white rectangle on top of whole wheat. Starting at narrow end, roll up jelly-roll fashion. Seal edges by pressing down firmly. Place in pan, sealed-side down. Lightly brush top with butter or margarine. Repeat rolling and shaping with remaining 2 balls of dough. Let rise in warm place until doubled, about 1 hour. Meanwhile, preheat oven to 400°F. Bake loaves 40 to 45 minutes, or until deep golden brown. Yeast breads test done when they are thumped on top. # FLOWER and GARDEN

**When should dahlia bulbs be dug and when should they be set out in spring? My bulbs didn't bloom this year because I set them out too late.** Mrs. L. G. H., In.

Dahlia tubers are set in deeply prepared loam when all danger of frost is past and soil is warm to touch. Many growers dig a hole a foot deep, lay in tuber and just cover it. As sprout grows soil is pulled in until fleshy root is deeply buried. In autumn, when frost first blackens foliage, cut back stalks and let tubers rest in soil for a week or two. Then dig them out, brush off some of the soil and let them cure in an airy, shaded, frost-free place before storing for winter.

**We lose many of our rose bushes each winter through freezing and ice storms. Protecting them with burlap bags doesn't work. What do you suggest?** M. S., Mo.

When the foliage is frosted, but temperature is above 45°, spray with lime-sulfur, dormant strength. Cut back canes to 28 inches and dump a five gallon bucketful of loose garden soil on crown of each plant. Protect further, by rimming bed with bales of straw and filling with loose straw to cover mounded plants and protruding canes. Remove protection in spring.

**I have just been given a lady slipper plant with yellow blossoms. How do I care for it?** Mrs. A. M., Ma.

You have a rare and valuable treasure. Plant it in full shade in garden with lots of leaf mold in soil and around plant as a mulch. Keep it moderately moist during dry weather.

**In August my impatiens plants get sick and leaves wilt. I used malathion spray, but it didn't help. What causes this and what is the cure.** M. C., Mi.

There's no point in spraying unless you see insects or disease on the foliage. The problem could be too much heat, too much sun, nematodes in the soil or crown rot brought on by heavy soil and too much watering.

**I have a hanging fern with needles and little thorns along stems. It has tiny pink flowers in summer. I would like to know if I could make new plants from white bulbs it has at root ends. I have been told it is a pine needle fern.** Mrs. M. B., New York.

This plant is an ornamental asparagus called Sprengeri and is not a fern at all. It can be propagated by the bulbils—just plant them half an inch deep in good soil—by seed and by division.

**I have a tall Dieffenbachia plant and would like to start a new plant. How do I go about this as there are no new shoots at the base?** Mrs. V. G., Wisc.

You can air layer it or cut off cane (new shoots will come from below), peel off leaves, cut it into six-inch pieces and half bury them lying on side in a tray of damp sand kept at 80°. Each will root and make a new plant in a couple of months.

**My Jacob's-ladder plant has little white bugs crawling over it. The leaves have small brown spots on them. None of my other house plants seem affected. What do you suggest?** Mrs. P. K. Z., Pa.

Use an aerosol spray made especially for house plants. Spray plants every week or so. If plant gets just covered with bugs, make a solution of Blackleaf 40 (as recommended on bottle) with a pinch of detergent. Dunk entire plant, swishing it around for a second or two while keeping pot dry.

Garden questions are answered each month by DR. JOHN P. BAUMGARDT.

# Ferns

Gladys Reed Robinson

The same cool, tranquil surroundings found in the woods, along cool streams and banks so delightful to the life of a fern, may be used as a pattern in our homes. Particularly suitable is a window facing north. A fern in a semi-shaded window will need daily attention. Blinds or shades must be closed or drawn allowing only filtered sunlight. It is wise before obtaining a plant to consider size and shape of window. Large houses when built were blessed with huge bay windows in which a large Boston fern is ideal. Other homes have smaller plant areas where harts-tongue, or Victorian bracken or Maidenhair will do well.

Ferns like temperatures ranging from 50°-70°, providing some method is used to furnish suitable humidity, for leaves require moisture in air. Semi-heated sun porches make excellent places to winter over ferns. Hand mist spraying furnishes moisture and helps keep the fern fronds clean and insect free. Tepid water must be used. Cold water will shock the plant, delaying growth. If allowed to become dry, red spider, thrips and aphis may take over and call for a mild insecticide spraying. Humidity may be increased by placing fern pots in a dish of wet pebbles.

They take a rest period in midwinter when less water is needed and little growth is observed. When growth begins it may need to be repotted.

A fern is best propagated by removing the mother fern from pot, cut off side shoots and repot. The soil should be very porous yet capable of holding moisture. Equal parts of garden soil, peat moss, leaf

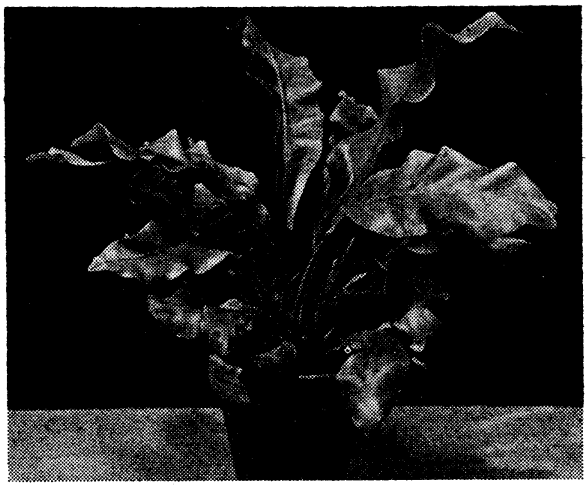
## Ferns

*(Continued from Page 53)*

mold and sand make a satisfactory mixture.

In summer ferns may be placed outside in a lath house or sheltered under a tree or bush. As a child I can remember my mother having a large Boston fern. She never gave it an extended vacation out of doors but on days when it was warm and the rain gentle and tepid, she would place it on lawn to be benefited by the soft drops of rain water.



Asplenium nidus.

The tropical countries are the homeland of the fern. To name a few ferns, we have the old time favorite Nephrolepis exaltata bostoniensis or Boston fern so prevalent in New England homes. Their drooping, leafy fronds often reach four feet. Of the 200 known forms of Boston fern, 100 are in cultivation. This fern was brought to the States from Jamaica in 1893 and soon became a popular house plant. Boston lace fern, Nephorlepis exaltata elegantissima, has fronds much shorter than bostoniensis.

Holly fern, Cyrtomium falcatum rochefordianum compactum, is shiny, spiked and the slashed foliage suggests a Christmas holly. Its hardiness resembles that of rubber plant.

Victoria Bracken fern, Pteris victoriae, is small with silver-striped foliage. The Pteris ensiformis victoriae is a small table fern.

The Maidenhair fern, Adiantum tenerum wrightii with its delicate fragile make up, is particularly fond of high humidity and plenty of water. It is suggestive of our outdoor Maidenhair.

Staghorn Fern Platycerium bloomii grows in osmunda fibre on a piece of cypress wood; requiring plenty of water and light. New plants will develop next to original and can be separated. Plenty of space is needed to display this fern satisfactorily.

I am particularly fond of the Birds-nest fern, Asplenium Nidus. The chartreuse green, dark ribbed, leaf-like fronds often 4 inches long and 8 inches wide flare out from center in a circular fashion. Center resembles a nest composed of dried, brown fibrous material. The little leaves are rolled up like a bolt of cloth and unroll out of this nest. This dramatic plant comes to us from India. So unlike other members of the fern family, it is difficult to readily accept it as a fern. It does well in sun during winter months, filtered sunlight in summer and requires plenty of moisture. So great is the shine on this plant that very often the question arises, "has it been treated with plant shine?" It is easy to propagate merely by separating a cluster with a "nest" from the mother plant and placing in a pot of fern soil.

If you prefer an all foliage plant for year around pleasures, I suggest you consider ferns for beauty and decoration. They do well on the north side of a building where flowers do not thrive.

# Mexican Fiesta String

The Mexicans make many interesting and useful things from gourds. The gourds are of many sizes and shapes and some suggest certain things. One kind looks like body of a bird with a long craning neck. And that is exactly what the Mexican craftsmen make of them. They add a bill and long legs to gourd. The birds are lacquered in brilliant colors, blue, orange, red or yellow.

The large gourds grow only in warmer parts of North America, but small gourds can be used to make interesting decorations, too. A package of mixed gourd seed will yield quite a variety of shapes. Or, if you don't care to grow your own, variety stores or florist shops usually have gourds for sale in fall. About a dozen small ones of varied shapes are needed to make a gay fiesta string to add a decorative note to kitchen or play room.

Allow gourds to cure until shells are hard. If color fades in the process, or if they were white gourds to begin with, use enamel in several colors to brighten them up.

Drill small holes through gourds near tips where stems were attached. Pass drill through shell on one side and right on through shell of opposite side so holes are in line. On small, round gourds that have no pronounced tip, run drill through from top to bottom.

Use bright colored embroidery cotton, or thread of similar thickness, for assembling string.

In addition to gourds about a dozen artificial flower leaves will be needed.

Thread a darning needle with a 36-inch length of thread. Double it and tie a knot about 2 inches from

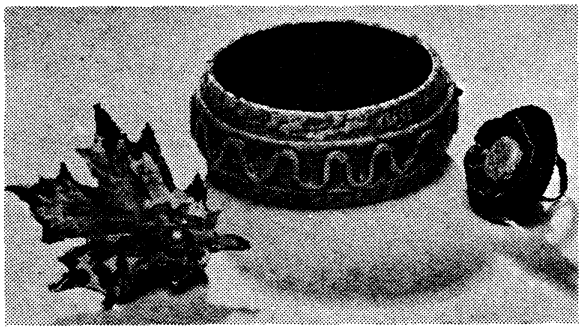
# Papier Maché

Papier maché (literally means chewed up paper) has undergone a recent revival and revolution. This fascinating and interesting craft was invented by the Chinese some 3,000 years ago. With the development of epoxy as a surface finish, papier maché items such as trays, wastepaper baskets and jewelry can withstand hard and long use. The mod-fashioned jewelry like that sold in department stores can now be made from "do-it-yourself" jewelry kits of papier maché available through mail order companies or craft stores in your locality. These kits contain complete instructions and materials to create any desired color combinations. They include everything from boutique earrings to lovely pins, rings and bracelets such as those shown in photograph. Just mix water with papier maché until consistency of clay, then apply to aluminum forms, that are later removed. This maché mixture may be stored for weeks in a plastic bag placed in a tight container.



After the initial application of mixture is applied to form, you next apply gesso, water colors, lacquer or glaze.

You may want to try making an attractive pin from materials available around the house. You need

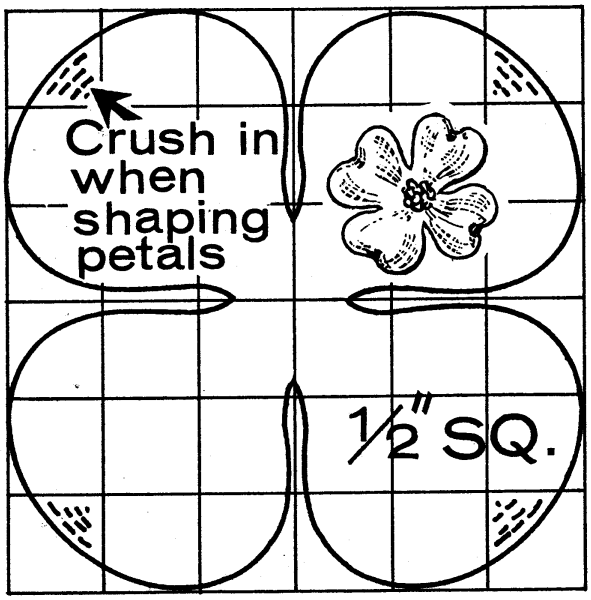
to assemble two groups of ingredients. First, the basic maché items such as newspaper, white paste, brush (about ¼-½ inch) and some water. Second group includes items needed for finishing and may be purchased at a craft or hobby shop. You need gesso (if you can't get gesso, make a mixture of plaster of Paris, paste and water the consistency of thin whipped cream), water colors and finally varnish or lacquer.

A pretty flower-shaped pin or earring set may be made by tracing a pattern or drawing one free hand on a piece of cardboard. Enlarge dogwood pattern on ruled one-half inch squares, following lines of flower. Using cardboard pattern, cut out 7 layers of newspaper to make form or mold. Cover work



area with waxed paper (paste won't stick to this), paste these seven layers of newspaper together by dipping brush first in water and then in paste. Be sure to paste heavily, because when it hardens, pin will be more durable. At this point you may need to trim around edges of flower petals to make all uniform. For center, tear small pieces of paper tissue (½ inch square), dip in glue solution and roll in small ball; make about 9 or 10. Stack together as shown in illustration. Next, apply undiluted paste to entire pin. Shape and smooth flower with fingers, cupping and forming leaves or petals into desired shape. Dry thoroughly (overnight to insure proper appearance of finished product). Apply a few coats of gesso, allowing it to dry completely. Paint pin with water colors shading as desired. Apply a coat or two of glaze, varnish or lacquer for final step. Glue pin or earring backs to under side of flower (these backs may be purchased at variety or hobby shops). Allow it to dry thoroughly before wearing.

After you have tried papier maché once, you will have the feel of the method and then you can use your imagination to combine shapes, forms and colors to create your own designs that are distinctly you. Large papier maché animals are being made extensively now.

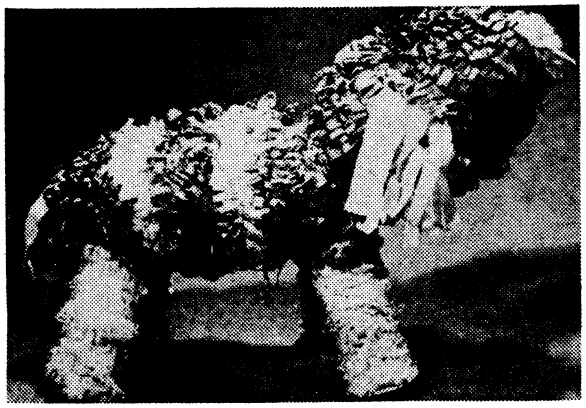
# Create A Pinata

Winifred Feledick

Scouting for a gay holiday decoration that can provide merriment for tots and adults alike? Borrow a Christmas custom from our friends south of the border. Create a pinata. Basically, the pinata is a papier maché form—usually an animal wrapped in bright tissue paper and filled with unbreakable trinkets. Suspended from ceiling and whacked open with sticks it's bound to generate a fun-filled experience.

Although the finished product looks quite professional, a pinata is easy to assemble and cost for materials is nominal.

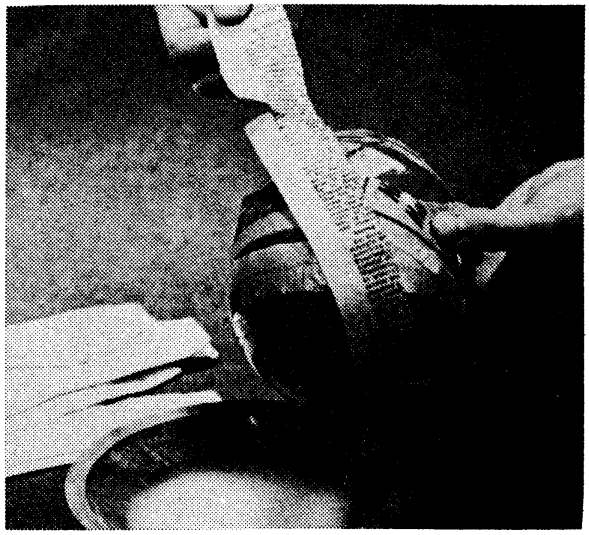


Completed Pinata.

Supply yourself with balloons, newspaper, flour, scissors, masking tape and multi-colored tissue paper.

Start by inflating several balloons of different sizes. Tear strips of newspaper approximately an inch wide. Prepare a thin paste of flour and water. Moisten strips of newspaper and place on balloons. Continue lapping until balloons are completely covered (photograph 1).

In a few days, the moist balloons will have dried. Select several and tape together in various animal shapes. A small balloon for a head; a large balloon for body. Empty rolls from paper toweling, wax paper, etc. make dandy legs (photograph 2).

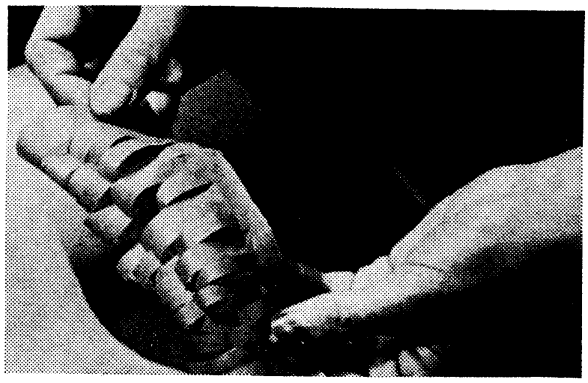


Photograph 1.

Once animal is assembled, cut a slit with sharp knife into which you can slip a supply of goodies. Hard candy, pennies, balloons and hair ribbons are all possible stuffing items.

Photograph 2.

The final step is time consuming. However, it is delightful to see a drab newsprint animal changed into a festive ornament as its tissue paper coat grows. Fold 3-inch strips of colored tissue paper lengthwise. With scissors fringe these strips. Next turn strips wrong side out (photograph 3). Wind these



Photograph 3.

fluffy strips around animal. You might find it convenient to anchor strips with white glue. Masking tape can also be used (photograph 4).

Photograph 4.

Strips of tissue paper can be cut to form a dangling tail, floppy ears, or long eye lashes. Form a ribbon harness for your pet and it's ready to brighten your home on Christmas morning.

We like to prolong our Chistmas celebration and found breaking the pinata on January 15—when the three kings arrived, the perfect answer.

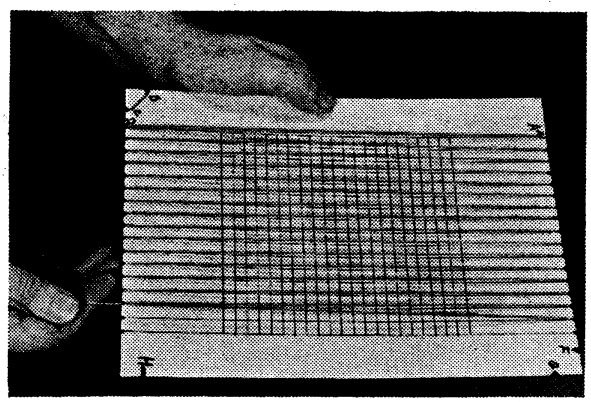
# Tile Bead Mats

Willard and Elma Waltner

Hot dish mats with conventionalized designs are easily woven of bamboo tile beads. Beads are ¼-inch long and ¼ inch in diameter and can be purchased at hobby shops. The method of bead stringing is same as that used by American Indians in making beaded belts and bands.

Make a loom measuring 7 x 10 inches from cardboard. Beginning 1 inch from one 10-inch side, draw 17 lines 5/16-inch apart from end to end on cardboard. Beginning 2¼ inches from one end, draw 22 crossing lines to complete "layout" of mat (16 spaces wide, 21 spaces long).

Cut shallow notches in cardboard at ends of each long line. At opposite corners of cardboard cut notches at points B, C, F, G and a slit at H (see photograph 1). Accurate spacing of these four notches and slit is not necessary as they serve only to hold stringing cord in place.

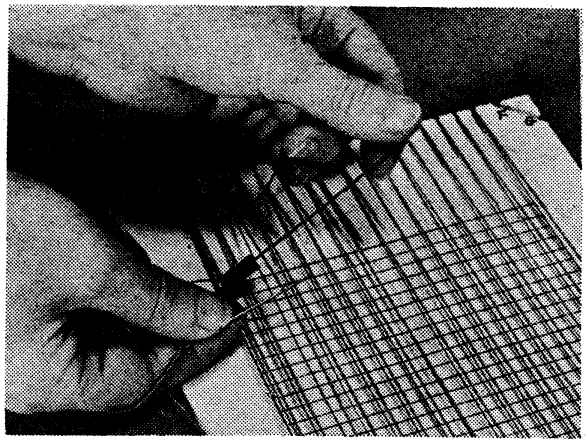


Photograph 1.

String loom with carpet warp or other heavy thread. Tie a knot in end of stringing cord. Catch knot in notch at A (photograph 1). Bring cord along line to opposite end and catch in notch D. Pass cord across corner under cardboard, up through notch B, down through notch C and up through notch D again. Take cord to opposite end and pass down through notch A, then under cardboard and up through second notch, back across top of cardboard to second notch in opposite end, under cardboard and up through third notch and so on until you have worked across entire width of loom, ending in last notch at same end stringing began. Pass cord under cardboard across corner and up through notch G, down through notch F, up through notch at last line then back across cardboard to opposite end. Catch cord in notch then pass it under cardboard and up through slit at H to hold cord. Cut off surplus. Loom is now strung on top side of cardboard with a double cord at each side.

Thread a darning needle with carpet warp or heavy thread. Tie end to two loom stringing cords at one side of loom, in line with first row of squares.

Following color chart, string two beads of proper color. Pass needle under third loom stringing cord (photograph 2) and pull cord



Photograph 2.

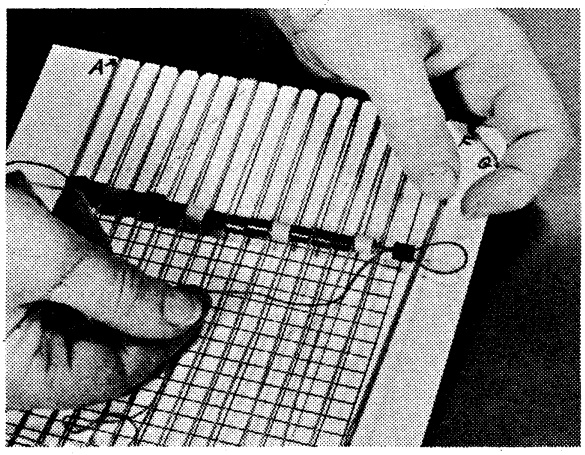
## Tile Beads

*(Continued from Page 77)*

through for its entire length. String two more beads. Pass needle under loom stringing cord number 5 and so on across entire width of loom. Pass cord around 2 loom stringing cords at edge and push needle back through last bead (photograph 3).

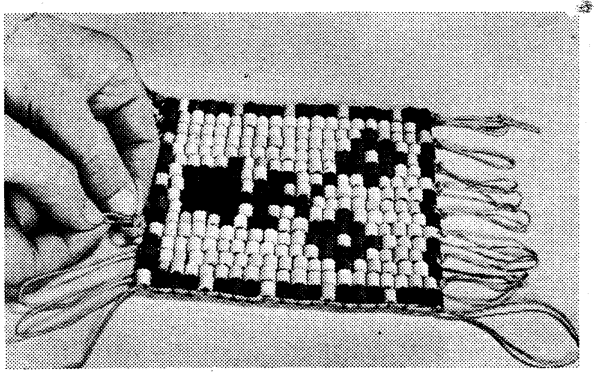


Photograph 3.

Pull cord tight. Pass needle through hole in next bead. Pull cord through bead. Pass needle under next loom stringing cord, through 2 more beads and so on until cord is worked back through first row of beads. Bring cord around two outside loom stringing cords and proceed stringing second row of beads as for first. Pattern will take form as rows are worked. Add bead threading cord as needed, tying it on with a square knot. Pull knot into a bead hole so it is hidden.

After stringing back through last row of beads, knot cord around two outside loom stringing cords, then thread bead cord back through several beads before clipping off surplus.

Slip loom stringing cords out of notches at ends of loom. Knot each loop around itself, working knot tight against bead (photograph 4). Clip loom stringing cords to make an even fringe at each end of mat.



Photograph 4.

To make your own mat design, lay out a 5-inch square on paper. Divide into 5/16-inch spaces across and ¼-inch spaces up and down. Though beads measure ¼ x ¼ inch, the spaces must be wider than long for a square mat, because loom stringing cords fit between beads across width of mat but beads lie against each other length of mat.

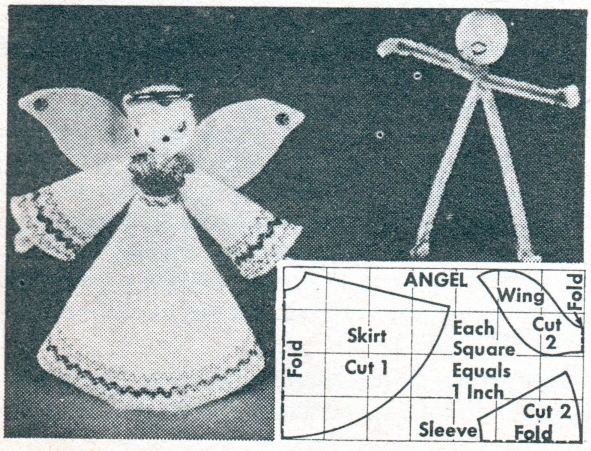
# Angel Doll

Pipe cleaners make interesting dolls. Any size can be made using different pipe cleaner lengths. Dolls can be dressed in any fashion.

Bend a 12-inch pipe cleaner in half. Insert folded center into a ¾-inch doll head (can be purchased in variety stores or hobby shops). Bend back and twist lower ends for feet. Twist an 8-inch pipe cleaner length around body, ¼ inch below head to form arms. Measure about 1 inch from end, bend back and twist to form hands.



Wind wool or rug yarn around pipe cleaner skeleton, starting at body below arms. Keep yarn tight and wind at a slant. Tie yarn securely. If rug yarn is used, wind once, wind twice for wool yarn.

Enlarge patterns for skirt, sleeves and wings. Use white felt for skirt and sleeves, mint green for wings. Stitch 3 rows gold rickrack or other metallic trim to skirt and sleeves. Beginning at wide edge, whipstitch sleeve seams to within ½ inch of top. Tack to body. Add a piece of gold lace or ribbon to top of body, crossing at waist.

Apply glue to doll's head. Wind yellow yarn around head for hair. Tack with gold pins and sequins. Use a brass curtain ring for halo.

Glue wing sections together. Add a sequin to each wing tip. Sew wings to body at shoulders.
